

HOPKINSVILLE KENTUCKIAN

WEATHER—For Kentucky
Thursday rain and colder

HOPKINSVILLE KENTUCKY, TUESDAY, NOVEMBER 23, 1916.

VOL. 37—No. 231

EDITORIAL COMMENT.

The Deutschland is off again.

A little more rain, Mr. Weather Clerk. The tobacco crop needs it.

It has reached a point where it is a matter of indifference whether Hughes congratulates or not.

This is the last week for paying taxes and both city and county will be well heeled by Dec. 1.

In one New Mexico brigade on the border 145 men have deserted. Kentucky soldiers are not that kind.

The death of Francis Joseph cuts but little ice. The death of William would stop the war.

Judge Hook at Kansas City yesterday held the Adamson law invalid. An appeal was at once taken.

The Mexican Commissioners have been given to understand that they must agree to something or go home.

A test case from Kansas city will be taken at once to the Supreme court and a decision on the Adamson law is expected by Jan. 1.

Why not elect the Congresswoman from Montana Speaker of the House? She is the Rankin member on the Republican side.—Elizabethtown News.

Turkeys were selling at 22 cents in Hopkinsville yesterday, two cents better than Louisville and Cincinnati. Keep your eye on Hopkinsville as a wholesale market.

The City Commissioners Tuesday instructed the police to enforce the dog ordinance and prosecute those who have failed to buy license tags. Some people are liable to have to pay fines much larger than \$1.

Several big tobacco crops were sold yesterday at 10 cents round. Two big crops were sold Monday at 9 cents. If our 30,000,000 pound tobacco crop can be moved at such prices before Christmas, there will be something doing in busy Hopkinsville.

Chairman Fitzgerald says he favors an embargo on food stuffs. He says: "What profit is it if our foreign trade grows with leaps and bounds while our own people are brought to the verge of starvation because of it. The time is ripe for an embargo. Let America be for America first."

Because the constitution of the United States uses only masculine words in referring to members of congress the eligibility of Miss Jeannette Rankin of Montana to serve in the nation's law-making body may be challenged. As Miss Rankin is the first woman ever to be elected to congress the question of woman's eligibility is now being raised for the first time.

The destruction of the High School building in Clarksville Sunday night and the High School building of the neighboring town of Ashland City on Monday night has called attention to the danger to school buildings from fire. Both were burned at night but the fires might have occurred in the day time with the buildings full of children. The Hopkinsville schools are well equipped with fire escapes and there are almost daily rehearsals in their use by the children.

PISTOL TOTER PULLED.

A negro giving the name of Nat Coleman attempted to pass a check for \$15.75 at Anderson's store Tuesday, drawn to the order of Rob Grisby on the Cadiz Bank and payable to Thomas Greenwade. He was arrested by the police and waived examination. A pistol was found on him and so he faces another charge.

BURGESS-JEFFERSON.

A marriage license was issued Tuesday to Ira L. Burgess and Miss Katharine Jefferson, of the Gracey neighborhood. The wedding was scheduled for yesterday.

CRAIOVA FALLS TO FALKENHAYN

Clinches the Teuton Hold On West Wallachia and May Cut Off Rumanians.

THINK RETREAT BLOCKED

City Has Population of 50,000 and Is 120 Miles West of Bucharest.

Advance in Alt Valley Adds to Rumanian Peril—Little Fighting Elsewhere.

Berlin, Nov. 22.—The capture of Craiova, in western Wallachia, by German troops, was announced by the war office in an official statement this evening.

Craiova lies on the main line between Orsova and Bucharest, about 120 miles west of the capital. The Rumanian army retreating in the Jiu valley is falling back toward this town and was reported in the Petrograd official statement of Tuesday to have reached the region of Filiash, about 40 miles northwest of Craiova.

Gen. von Falkenhayn's troops have beaten it to Craiova, as seems likely, its railway line of retreat thus was severed. Likewise it would appear that the Rumanian force which would have been operating in the Orsova region was seriously imperiled if not cut off, by this new Teutonic success.

Craiova before the war had a population of nearly 50,000 and was an active center of Rumanian trade.

LITTLE FIGHTING ELSEWHERE.

Little fighting is reported from any of the other fronts.

In the Somme region of France a heavy fog hung over the entire battle field Tuesday and nothing but artillery duels took place. Bombardments and minor infantry attacks have occurred in the Italian theater.

In Macedonia, according to Paris, the entente allied troops to the north of Monastir are still pressing the Germans and Bulgars. West of Monastir, the Italians have repulsed counter-attacks delivered by the Teutonic allies.

An unofficial message from Saloniki asserts the Serbians have captured seven villages west and northwest of Monastir, taken many prisoners and field guns, machine guns and a quantity of war material.

Berlin reports the sinking by a German submarine in the English channel of a French guard vessel and seven merchantmen. The French ministry of marine denies that any French war vessel has been sunk there.

WAS ILL ONLY THREE WEEKS

Mrs. A. C. Batts, of Near Edgote, Passed Away Monday.

Mrs. A. C. Batts died about noon Monday at her home near Edgote. She had been ill only about three weeks. Mrs. Batts was 36 years old. Her husband and three children survive. The remains were taken to Clarksville and the interment took place in Greenwood Cemetery Tuesday afternoon.

HIGH SCHOOL BURNED.

The High School building at Ashland City was destroyed by fire Monday at midnight. None of the details of the disaster could be learned. It is stated that the building cost in the neighborhood of \$10,000. It was totally destroyed. The origin of the fire was not known, but it was said that it possibly caught from the boiler room.

LITTLEFIELD HIGHWAY

Name Wanted For the Pike From Pembroke to Fairview.

GEN. YOUNG IS PLEASED

The Fiscal Court Petitioned To Give It This Name.

A movement has been started at Pembroke by Mr. W. E. Forgy and others to have the Pembroke-Fairview pike of six miles named "Littlefield Highway" in honor of Gen. Littlefield, the Texas capitalist, who has made the erection of the Jefferson Davis obelisk at Fairview a certainty.

Gen. Bennett H. Young in a letter to Mr. Forgy says that the obelisk will be 350 feet high and will make Fairview one of the meccas of the South.

Pembroke is nearer than Hopkinsville, being the nearest point on the Dixie Bee Line to Fairview. The Jefferson Davis Highway connects Hopkinsville and Fairview and the plan is to have the Littlefield Highway connect Pembroke and Fairview. The road is already piked.

Mr. Forgy was here yesterday with a big list of Pembroke names on a petition to the Fiscal court to officially designate the highway that now has no distinctive name. Many Hopkinsville people also signed the petition.

The proposition is a capital one and the whole county will be pleased to see Gen. Littlefield thus honored.

BROKE OFF A MARRIAGE

Helen Keller's Teacher Persuades Her To Stay Single.

Boston, Mass., Nov. 22.—Helen Keller, famous deaf, dumb and blind girl, now about 35, whose intellectual prowess, despite her handicaps, has astonished the world, has abandoned a matrimonial career for the sake of the woman who has enabled her to learn to talk and offset her innate infirmities, Mrs. John A. Macy.

Miss Keller was engaged to Peter Fagan, a young Socialist, who became acquainted with her while a reporter for a Boston newspaper and was employed by her as secretary. But romance came into her life, much against the wishes of her mentor, Mrs. Macy, upon whom she is absolutely dependent for communication with the world, for the development of her powers of speech and observation, and to whom she is indebted practically for her life.

Mrs. Macy's opposition to her pupil's marriage was not based upon selfishness, but on a realization that it would hinder the further development of a marvelous girl, and so the romance has been shattered.

Mr. Fagan has sailed for Tampa, Fla., with another denial added to the many made by himself and Mrs. Macy that there had been any romance at all.

He, too, realized that it was best for Miss Keller's destiny that all thoughts of marriage be abandoned, and he denied like a gentleman that it had ever been contemplated.

NEW TURKEY RECORD.

John L. Thurmond, of Gracey, bought of Martin Aldridge a bronze turkey tom, a few days ago that weighed 30 pounds. The price paid was 22 cents a pound making the price \$6.60. This breaks the Hopkinsville record of \$5.88. It is reported that Mrs. J. J. Garrett sold a still larger one that brought \$7.48.

Yesterday the Haydon Produce Co., bought one from Mrs. Hugh Henry at \$6.38. It weighed 29 pounds.

LAFAYETTE DELEGATION

Given Encouragement In the Matter of Road Improvements.

ON THE PIKE TO HOWELL

Other Important Matters Considered at H. B. M. A Meeting.

A meeting of the H. B. M. A. was held Monday night with the question of assisting the Lafayette people to complete their new pike towards Howell as a special order.

Magistrate L. D. Rogers, Dr. J. J. Ezell, R. L. Horn and R. S. Wootton were a committee from Lafayette to ask that about \$800 more be subscribed. It was stated by members of the committee, each of whom addressed the meeting, that 3,133 yards had been built at a cost of \$2,600. There remains 2,453 yards to be constructed, most of which is graded, and the estimated cost is \$2,100. The total cost of 3.3 miles will be about \$4,900. All subscriptions, including \$700 given by Clarksville business men, \$1,800 by Lafayette, \$1,000 by the Christian county road commission and \$300 by the fiscal court, amount to \$4,100. In order to complete the road about \$800 must be raised.

E. L. Weathers, R. E. Cooper, James West, Judge Knight, L. H. Davis and others told of the importance of the pike to Hopkinsville. On motion of Mr. West, a committee was appointed by President Davis to canvass the business district for subscriptions. The committee was at work Tuesday. It is composed of James West, R. E. Cooper, H. H. Abernathy, A. H. Eckles, Ed L. Weathers, J. E. McPherson, Ira L. Smith, D. D. Cayce, M. C. Forbes, H. M. Frankel, George Crenshaw, J. T. Wall, V. I. Gates, Ed Radford, J. J. Metcalfe and H. A. Keach.

The Davis Memorial project at Fairview was up for consideration and assurances were given that Gen. Young was to receive every possible assistance from the H. B. M. A.

The coming engagement of Riccardo Martin Dec. 18, also brought on a general discussion and a committee was appointed to help make the affair a big success.

GRACEY REVIVAL WELL UNDER WAY

Waters Evangelistic Chautauqua Holding Meeting at Methodist Church.

The Waters Evangelistic Chautauqua began a two weeks' meeting in the Methodist church at Gracey Monday night and Rev. Bascom Waters is preaching twice daily to capacity congregations. The music is under the direction of a competent singer. Miss Nell Dreyfuss, of Nashville, arrived Tuesday and joined the choir to assist in the music. Rev. H. H. Jones, pastor of the Methodist church at Trenton, is assisting in the meeting.

FUNSTON WRATHY.

San Antonio, Tex., Nov. 22.—General Frederick Funston made a hot retort to charges made by Southern Baptists that he had attempted to censor the sermons preached to soldiers.

"I did not tell the Rev. Gambrell he could not tell the militiamen they had lost their souls," he said, "I told him that a soldier's soul was no more lost than that of other people, and I expected them to be treated like others."

"You can tell the Baptists for me that if they intend to continue misrepresenting me they had better place their property in their wives' names, or I shall sue them for libel."

FORTUNES IN TOBACCO CROPS

Market Opens With High Prices and Farmers Are Joyful.

NOW FOR THANKSGIVING

Christian County Will Soon Be Rolling In Money And Prosperity.

The movement of Christian county's big tobacco crop began in earnest this week, when two or three big crops not of the best quality sold in the barn at \$7.50 around.

The next day such prominent farmers as W. E. Adecock and Allen Owen began to sell at \$9 around. By Wednesday the better grades were selling at \$10. T. P. Johnson sold 50,000 pounds at that price. Mr. Adecock last year sold his crop at \$5.50 around and while it is not of the best quality this season, he has sold 80,000 pounds at \$9, almost twice as much as he got last year.

At these prices the tobacco crops that will be marketed in Christian county this year will put more than \$1,000,000 into the channels of trade.

The high price before the market formally opens is mystifying the farmers. It may mean that the embargo question will again effect the market in one way or another as it did last year. Many of the best farmers believe the price offered justifies the prompt movement of the crop and indications point to unprecedented activity all along the line before the holidays.

FOOD GAMBLERS DESTROY CROPS

Federal Probe Shows Speculators Allow Vegetables to Rot To Boost Prices.

Chicago, Nov. 22.—Information to support rumors that produce dealers are permitting fruits and vegetables to rot in the fields in order to cause a shortage and increase prices came to the government officials who are investigating the causes of the present high prices of food today. B. L. Brundage, a farmer of Gary, Ind., reported that he had sold his crop of seven acres of pumpkins for cash. When the crop ripened and the pumpkins were allowed to rot in the fields, he tried to find the buyer and learned that the name and address he had given were fictitious.

That similar conditions prevailed elsewhere and that speculators are buying potatoes, cucumbers, cabbages, pumpkins, apples and other fruits and vegetables and allowing them to rot unpicked, have been rumored in the federal investigation from time to time.

Complaint was also received that a combination to raise the price of beans exists and that quantities of them, both in bulk and in can, are being held in Norfolk, Philadelphia and Saginaw, Mich. The storing of these beans according to the report to the federal bureau has increased the cost of canned beans 60 per cent. and dry beans 40 per cent. in the last months.

An agent was sent to Peoria, Ill., to investigate a report that 28 cars of potatoes had been dumped into the river there. If it develops that the potatoes had been condemned by public health authorities, the agent was instructed to learn how long they had been held in cars.

WATTS PLACE SOLD.

G. L. Campbell bought for the Hopkinsville Realty Co., the Watts place in South Christian of 100 acres. Immediate possession given. A consideration of about \$50 per acre was the price paid.

EMPEROR OF AUSTRIA

Dead at The Great Age of Eighty Seven Years.

LONGEST REIGN HISTORY

Succeeded By His Nephew Who is Now At The Front.

London, Nov. 22.—Emperor Francis Joseph of Austria, died last night. The first indication of his sinking condition came a few days ago, when it was announced that it had been decided to associate with him the heir to the throne, Archduke Charles Francis in the government of the country and that he was to assume the throne on Dec. 2, on the sixty-eighth anniversary of the emperor's ascension to the throne.

So far as is known here Archduke Charles is still at the front in command of the army.

NEW EMPEROR BORN IN 1887.

Archduke Charles Francis, grand nephew of Emperor Francis Joseph became heir to the throne of Austria-Hungary by the assassination of Archduke Francis Ferdinand, prior to the outbreak of the war. He has been in command of the Austrian armies on various fronts during the past two years.

Archduke Charles Francis was born on Aug. 17, 1887. His wife was Princess Zita, of the Bourbon house of Parma. His father was the Archduke Otto, who was the younger brother of Francis Ferdinand.

DEATH CHARGED TO WAR.

Like the death of Pope Pius X. the end of the venerable Emperor Francis Joseph is charged largely against the great war. The one man was a helpless spectator, shocked at the horror of such a sudden and widespread clash of arms, the other man whose action in avenging the assassination of his heir engulfed nine nations in combat.

With Francis Joseph's death in the midst of this great conflict there is a remarkable climax to a long list of tragedies in the Hapsburg family—a list unparalleled in any other reigning house in Europe—including the assassination or violent death of seven near relatives.

It is doubtful if in all history there has been an active, authenticated reign longer than that closed by the death of Francis Joseph.

At 19 years of age he ascended the throne of Austria, upon abdication of his uncle, Ferdinand I., Dec. 2, 1848, his death ending an active reign of 68 years, all but the first twenty which he was also apostolic king of Hungary.

Tradition says that Pharaoh ruled for 90 years and there is the more modern instance of Rameses I. Sesostri, of the Greeks, whose reign is reputed to have covered 67 years.

But in recorded history there certainly has been no reign equal in period of time of that of the Hapsburg which closed today. Louis XIV, of France was nominally king for 72 years. He actually occupied the throne for little more than half a century. A closer rival, and the only one of modern times, was Queen Victoria who reigned for 64 years.

MRS. HICKMAN'S BIRTHDAY.

Mrs. G. A. Hickman celebrated the 95th anniversary of her birth Nov. 21, at the home of one of her daughters, Mrs. J. P. Thompson. Mrs. E. M. Flack and Mrs. W. T. Tandy are also her daughters. She is still in excellent health.

Clarksville's Brag Price.

Clarksville, Tenn., Nov. 22.—The tobacco market has been active, receipts being heavy, nearly all going to the loose floor dealers. The record sale of the year was made when one crop sold for \$18.50. This is the highest price paid here for years.

advance.

THURSDAY, NOV. 23

President Wilson practically com-
pleted his next annual message to
congress. It will be devoted almost
entirely to domestic matters and will
deal primarily with legislative ques-
tions recommended to congress
previously and not finally. The
principal items in the measure are
understood to be railroad legislation
to meet the situation created by the
threatened railroad strike last Aug-
ust; a measure to allow American
exporters to form common selling
agencies abroad; conservation bills; a
corrupt practices act and the Porto
Rico bill.

American aviators, fighting with the
French forces on the western front
have brought down a total of 21 Ger-
man aeroplanes, according to Lieut.
Wm. Thaw, a member of the Franco-
American aviation corps who arrived
in New York on the steamship La
Touraine for a three week's visit
among relatives. Lieut. Thaw was
accompanied by C. C. Johnson, also
an American aviator whose home is
in New York.

Twenty unexploded bombs were
found in the sugar cargo of the
American steamship Sarnia, upon
her arrival at Cherbourg, France, af-
ter a voyage starting from New York
on September 2, during which the
vessel caught fire from a cause un-
known, according to Fourth Mate
Wybrance, of the Sarnia, who has re-
turned to New York.

According to the Telegraf, the inter-
vention of the new nuncio at Brus-
sels on behalf of Pope Benedict has
resulted in only four persons out of
18 who had been condemned to death
at Hasselt for spying, being executed.
Those pardoned included the burgo-
master of Namur and two priests.

A drove of 431 turkeys coming in-
to Maysville for slaughter for the
Thanksgiving market was a veritable
gold mine for the owner. They
averaged \$3 each, netting him \$1,293.
They are now bringing 20 cents per
pound on foot, 35 cents dressed.

The population of continental United
States has passed the 103,000,000
mark. Officials of the treasury de-
partment, in their monthly circulation
statement, estimate that on Nov. 1,
the population of the country was
103,002,000.

Veteran Guard.

Gurmuk Singh, the guardian of the
sacred book of "Nanak," the Sikh
Bible, is close upon 100 years of age,
but still performs his duties at the
Lion temple of the Sikhs, in Hyder-
abad, where the sacred book is kept.
He has seen active service with the
Sikh army, and after much hard fight-
ing, emigrated to the Nizam's country.
On being pensioned, he obtained his
present position at the temple.

The Law.

The lesson of humility is hard to
learn. The lesson of human brother-
hood is still harder to learn. But if
we can pluck any truth out of the
awful agony of the war it is this—
that no sort or kind of injustice or
cruelty or oppression or repression is
in the end profitable or even safe. That
is the law.—James Douglas.

According to Inquiries.

"It's wrong of me to take this food,"
said the tramp, as he reached out for
the pie in the window; "but," he added,
reflectively, "I've had repeated in-
quiries for it from the department of
the interior, and I shall now deliver
the goods."

EARS ON SUBMARINE MINES

American Inventor Has Perfected a
New Defense Against
U-Boats.

Edward F. Chandler, an inventor
who has made a close study of sub-
marine problems, has worked out a
system of applying microphones to
mines so that it would be possible to
blow up a submarine trying to worm
its way into a mine protected har-
bor, or a battleship seeking to enter
a harbor at night or in a dense fog.
Popular Science Monthly says.

"In my system," writes Mr.
Chandler, "the mines are arranged
in groups of four, each group consti-
tuting a field unit. On each mine a
microphone is mounted. These mi-
crophones literally hear the hum of a
submarine motor. Not only that,
but the microphone which hears the
submarine best, because it is the
nearest to it, can easily be located.

"It is easy enough to determine
whether a submarine is nearer mine
one or two of a given field unit of
four mines. The field units are in-
terconnected electrically, so that the
entire harbor is sown with high ex-
plosives.

"A mine field equipped with mi-
crophones in the manner indicated is
electrically connected with a luminous
annunciator. In other words,
wires run from each microphone to a
board which is divided into squares
corresponding in number with those
of the mine-field units. Behind
each square a lamp is mounted. As
a hostile ship passes through a mine
field the nearest microphones pick
up the vibrations of her propeller
and the corresponding lamps on the
board glow."

WHY THEY DON'T SPEAK NOW.

Miss Brown—Heah am de engage-
ment band dat Mose put on muh
finger. Et sartainly do attract a lot
of attention.

Miss Black—Et ought to. Brass
bands always attract attention.

PURIFY WATER FROM MINE.

The largest water purification
project ever undertaken by any in-
dustrial company is now being
planned by a great coal mining com-
pany in Pennsylvania. Formerly
immense quantities of water were
pumped from the mines in the coke
region and emptied into the nearest
stream, polluting that stream so that
fish would not live in its waters, and
they were not fit for any use. Pump-
ing the water into the stream and
treating the impure water afterward
so that it could be used in the boilers
of the company were two expensive
operations. Now the chemicals are
being extracted from the water as it
comes from the mines. The sale of
the chemicals pays part of the ex-
pense of pumping. The purified
water is ready for any industrial use.

ENOUGH SAID.

"I say, Bill, how about that ten
dollars you borrowed from me six
months ago?"
"Now, look here, Jim. I've got
as much patience as the next man,
and no more. If you keep on pee-
tering me about that ten I'm going
to forget that you ever lent it to
me."

GETTING READY.

"Mary, we are going to have a
friend dining with us this evening,
and I want you to make some spe-
cial preparations for him."
"Indeed I will, ma'am. I'll go
right away, ma'am, and curl my
hair."

WHAT SHE THOUGHT.

"Did the burglars upset your
home much?"
"Terribly. When I entered and
saw everything upside down my first
thought was that Jim had come
home unexpectedly and changed his
clothes."

Old Lady's Sage Advice.

Knoxville, Tenn.—Mrs. Mamie
Towe, of 102 W. Main Street, this
city, says: "If you had seen me,
before I began to take Cardul, you
would not think I was the same per-
son. Six doctors failed to do me
good, and my friends thought I
would die. I could hardly get out
of bed or walk a step. At last an
old lady advised me to take Cardul,
and now I can go most anywhere."
All ailing women need Cardul, as a
gentle, refreshing tonic, especially
adapted to their peculiar ailments.
It is a reliable, vegetable remedy,
successfully used for over 50 years.
You ought to try it.—Advertise-
ment.

Thought Irving Couldn't Act.

Edwin Booth told one story of Irving
that revealed a tragedy in that gifted
man's life. Edwin M. Royce writes in
Harper's Magazine. One day, as they
were sitting in Booth's room in the
theater, the latter was handed a letter.
Irving casually remarked that he re-
cognized the handwriting. Booth offered
it to him and asked him if he cared
to read it. Fortunately the Englishman
declined. Mr. Booth opened it
and read the following from Mrs. Hen-
ry Irving: "Dear Mr. Booth—Can you
spare me a box? I should like to have
my sons see what good acting is." Dur-
ing my first season with Booth, quite
by accident I found myself in a board-
ing house in San Francisco kept by a
very sweet, quaint old English lady
who was an aunt of Henry Irving,
and she told me that Mrs. Irving had
been known to occupy a box at her
husband's performances and ostenta-
tiously read a newspaper during the
performance.

Pine-Tar Relieves a Cold.

Dr. Bell's Pine-Tar-Honey con-
tains all the soothing elements of
the pine forest. It heals the irri-
tated membrane, and by its anti-spi-
tie properties loosens the phlegm,
you breathe easier, and what prom-
ised to be a severe cold has been
broken up. For that stuffed-up
feeling, tight chest or sore throat
take a dose of Dr. Bell's Pine-Tar-
Honey and prevent a wearing, ha-
king cough dragging through the
winter. At your Druggist's 25c.—

Lines to Be Remembered.

Let us not forget, and let us teach
it to all, that there would be no dig-
nity in life, that it would not be worth
while to live, if annihilation were to
be our lot. What is it which allevi-
ates and which sanctifies toil, which
renders men strong, wise, patient, just,
at once humble and aspiring, but the
perpetual vision of a better world,
whose light shines through the dark-
ness of the present life? For myself,
I believe profoundly in that better
world; and after many struggles,
much study and numberless trials, this
is the supreme conviction of my rea-
son as it is the supreme consolation of
my soul.—Victor Hugo.

The DAIRY

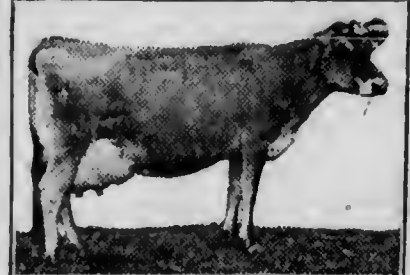

FINE INVESTMENT IN CALVES

Writer Tells of Profitable Experience
in Buying Up Young Animals—
Feed Cost but Little.

Now is the time for farmers who
have more hay than they can feed, to
buy calves, for they will make a fine
investment. At least my experience
proves so, says a writer in an ex-
change. Three years ago we bought
12 calves, as we had more hay than
we could use. It was cowpen hay.
Usually at this time of the year some
farmers have one or two calves for
sale for about \$10 to \$15 each, which
is the price we paid for ours. We
turned them on pasture, and by the
time pasture was gone they were in
fair shape, as they were very poor
when we bought them. That winter
all we fed them was cowpen hay. In
spring they were nice, sleek and fat.
Then about June and July we bred
them to a fine registered Jersey bull.
All the calves were pure or half Jer-
seys.

The manure was worth as much as
the hay, for it is the best of fertil-
izer.

Champion Jersey Cow.

zers, thus getting a second use out
of it in raising a better crop and in
building up the farm. Thus we were
out the time in feeding the 12, which
was not much, as all we had to do
was to stuff hay in the mangers
twice a day and salt them once a
week. Water was plentiful. The next
winter we fed them clover and cow-
pen hay, also corn stover, no grain,
and they were in fine shape.

In the spring they had calves, of
which we kept the females and sold
the males. The calves were worth
more than the handling of the cows.
Then we had young, fresh cows for
sale, which after the sale brought over
\$50 each. Before selling we bred to
our registered Jersey bull, which was
one of the best to be had.

CLEANLINESS IS BIG FACTOR

Special Care Should Be Taken to Pre-
vent Meal in Corner of Boxes
From Fermenting.

Cleanliness is one of the most im-
portant factors in feeding young
calves. Clean feeding pails, troughs,
and stalls are safeguards against di-
gestive troubles. Milk should be fed
only in clean pails, which should be
washed and scalded after each feed-
ing. All feed boxes should be kept
clean. Special care should be taken
to prevent meal from fermenting in
the corners of boxes. Fermented or
moldy feed will often upset the diges-
tive system of a calf and endanger
its life. No more grain should be
fed than will be cleaned up in a few
minutes. The bedding in calf stalls
becomes wet very quickly. The calf
should by all means be kept dry, and
it is therefore necessary to keep the
stalls well bedded at all times.

WATER AND SALT NECESSARY

Important Requisites for Proper Manu-
facture of Milk, Says South Da-
kota Professor.

Don't stint your dairy cows on wa-
ter, if you want them to keep up the
milk supply, suggests Prof. C. Lar-
sen of South Dakota State college.
He states that the amount of water
needed by a dairy cow is in propor-
tion to the amount of milk she gives.
The average cow will drink about 75
pounds per day, while some very large
milk producers drink 200 pounds per
day. The dairy cows should also have
free access to salt. The right method
of feeding salt is to have a water-tight
box 10 or 12 feet long in the yard,
raised about two feet from the ground
on solid posts. Then put a whole har-
rel of salt in the box and keep plenty
of it there all the time. The cow
needs salt not only for her body but
for the manufacture of milk.

COMFORT OF COW IMPORTANT

Animal Should Be Made Comfortable
and Willing to Part With Her
Supply of Milk.

At milking time it is important that
the cow be comfortable and contented.
She should have consumed at least a
portion of her food before the milking
begins, so she will have been satis-
fied and willing to part with her milk.
It is also well that clean, fresh water
be offered her before the milking pro-
ceeds.

FAITH IN GOOD ROADS

Country Spending \$200,000,000 Yearly on Improvements.

Ratio Expected to Be Double That Amount in Next Decade—Government Won't Aid Community That Doesn't Help Itself.

The country is now spending well toward \$200,000,000 a year on rural roads—perhaps twice what it was spending for that purpose ten years ago. Faith in good roads probably increased during the decade in an even greater ratio, and it will be surprising if the expenditure ten years hence is not double \$200,000,000.

This is mainly, of course, an effect of the motor car; but a lot of people misjudge the motor car because they forget—or do not know—that in all the more prosperous rural regions a gasoline vehicle nowadays is just about as standard an implement as a mowing machine. The day has long gone by when good roads agitation could be discredited by ascribing it to bloated urban plutocrats who wanted to ride comfortably.

By an act that became law last month the federal government purposes to contribute \$75,000,000 for good country roads used by the postal service, sharing the expense equally with the states or other local units. The work is to be done on specifications approved by the department of agriculture, duly inspected and approved.

The federal government ought to contribute, for highways are a legitimate national interest. Under this law it helps no community that does not first help itself. Its participation will tend powerfully to standardize road building and to distribute the results of experience; so it should tend to give a better quality of road for no greater cost.

Twenty-five years ago any given so-called public highway was usually the exclusive affair of a board of supervisors or commissioners who ruled for a year over a territory three or four miles square. Presently the counties came in; then the states; now the federal government—which is as it should be.—Saturday Evening Post.

Rheumatism Follows Exposure.

In the rain all day is generally followed by painful twinges of rheumatism or neuralgia. Sloan's Liniment will give you quick relief and prevent the twinges from becoming torturous. It quickly penetrates without rubbing and soothes the sore and aching joints. For sore, stiff, exhausted muscles that ache and throb from overwork, Sloan's Liniment affords quick relief. Bruises, sprains, strains and other minor injuries to children are quickly soothed by Sloan's Liniment. Get a bottle to day at your Druggist's, 25c.—Advertisement.

Nothing Very Serious.

Mrs. Casey—"Och, Pat, when the doctor told yez ye had something wild a Latin name to it a yar-rd long, it didn't scare yez?" Casey—"Faith it did. Norah, darlint. But when he only charged me a dollar, O'knew it didn't amount to much."

Always Pay for Disobedience.

Disobedience is economy. Disobedience, extravagance. He who disobeys the laws of nature has a doctor bill to pay. He who disobeys the laws of his country has a lawyer's bill to pay.

Ice is Cheap---Try This

When the salesman commences to tell you why the Range he sells is so much better than all others, ask him if he will give you the privilege of getting his range red hot and melting a fifty pound cake of ice on it. He'll probably tell you that this test is all bosh and try to talk you out of it.

WE SAY THIS TO YOU

Buy from us a MAJESTIC RANGE and we will guarantee it will stand this severe test, without cracking or damaging the range in any way, before you pay us one single penny.

NOW LISTEN There never was and never will be a bargain sale on MAJESTIC RANGES. They're worth one hundred cents on the dollar; however, for the next ten days we are going to make some attractive prices on MAJESTIC RANGES, and it'll pay you to investigate before placing your order for any kind of a range.

WE HAVE SOME NICE BARGAINS

in box stoves of every description. We Guarantee to make you better prices on box stoves than even the manufacturer makes to the wholesale trade in car load lots. CALL AND SEE FOR YOURSELF.

FORBES MANUFACTURING COMPANY

Incorporated.

THE HOME OF THE MAJESTIC

KEEP OUT OF THE RUTS.

To the Traveling Public:

You are urgently requested to use the entire road and not drive in the same track all the time as such a procedure will cause the road to rut and, even though it might be only for a small depth, water will run in the ruts and cause the road to deteriorate. A rut is very hard to repair especially until it gets to be three or four inches deep.

The people should realize the fact that they are paying for the road themselves and should try to preserve same because it is their property.

R. WILEY,
Com. of Public Roads.

His Close Shave.

Some Republicans claim to find comfort in the fallacy that Mr. Hughes came near defeating Mr. Wilson. Reviewing the close vote in several states that Hughes narrowly carried it will be seen how the change of a very few votes would have made him

States.	Electoral Votes.	Majorities
Connecticut	7	6,691
Delaware	3	1,379
Indiana	15	7,294
Maine	6	5,669
Minnesota	12	298
Rhode Island	5	4,806
South Dakota	5	5,443
West Virginia	8	2,027
	61	33,601

Thirty-three thousand six hundred votes gave Mr. Hughes sixty-one electoral votes. If he had not had these paltry few thousand faithful votes in the right states his electoral votes would have been 194, compared to President Wilson's 337. A change of less than 17,000 votes would have done this.—Messenger.

WIFE GIVES BLOOD AS LOVE PORTION

Unable to Get Along With Husband for Years So Adopted Friend's Advice.

Batavia, N. Y., Nov. 22.—The Batavia police were called upon to arrest the wife of Joseph Culturo, of Watson street. Culturo reported to the police that his wife had attempted to poison him, and gave the police a bottle containing what he said was wine and which he thought contained poison. In the bottle, besides the wine there was a peculiar sediment.

The man's wife, when taken to headquarters, said she had not been attempting to poison her husband, but that she had been unable to get along with him for several years.

She had been told by a friend that if she would put some of her own blood into something that her husband drank that it would act as a charm to win back his affections, so she cut a vein in her arm and put half a glass of blood into the wine.

A \$15,000 Bump

Washington, Nov. 22.—Mrs. Teresa Burup, of Baltimore, searching for a place to put her pet dog, excluded from her stateroom on the steamer Rochambeau, was thrown by a lurch of the ship and got a verdict of \$15,000 against the Compagnie Generale Transatlantique.

By dismissing the company's appeal the supreme court put the verdict into effect. Abram I. Elkus, now ambassador to Turkey, was Mrs. Bump's attorney.

In Bankruptcy.

Louisville, Ky., Nov. 22.—As a result of receivership proceedings pending against the Metropolitan Fire Insurance company at Covington, the Metropolitan Trust company, subsidiary of the risk company and in charge of stock sales, filed a voluntary petition in bankruptcy here today. Liabilities are scheduled at \$32,002 and assets at \$54,370. Of the latter sum \$25,000 represents unpaid commissions alleged to be due from the fire insurance concern.

Baptists Protest.

Norfolk, Va., Nov. 22.—The Baptist General Association of Virginia has adopted a protest against the reported action of Gen. Funston in informing the Rev. Dr. J. B. Gambrell, representing the Texas Baptist State Board, that he could conduct religious services among the soldiers at the border, but must not tell them they were "lost sinners."

Investors.

Some men have no use for the bonds of friendship unless they pay a dividend.—Kansas City Journal.

BEST SELLERS IN JAPAN

History, Geography and Foreign Dictionaries Are Most Popular.

Lists of new books to be published in Japan this fall, says the Des Moines Register, reveal a marked tendency toward certain lines of knowledge which are exactly in line with the recent mental development of the Japanese.

The best sellers in Japan, according to the bookmen, will be works of history and geography and foreign language dictionaries.

Japan is still seeking information about the rest of the world. The country has just finished rubbing its eyes and is still surprised and a trifle perplexed by what it sees.

The attitude of Japan toward the rest of the world is slightly like that of the imagist poets to the facts of nature. Japan suddenly realizes that beyond her shores is a vast area filled with people of different customs, different tongues and varying accomplishments. The Japanese immediately turn their attention to studying as something new what the rest of the world is familiar with. That is why the Japs are reading history and poring over dictionaries and geographies.

HORRIBLE THOUGHT.

Lazy—W'at's up, Hazy? W'at yer lookin' so worried about?

Hazy—I read a piece in de paper dis mornin' where a scientific writer says doin' nothin' all de time is de hardest kin' o' work. Heavens! suppose dat's true!

Some Shot.

Three caribou, a grizzly bear, two wild sheep and three goats constitute the game bag of Mrs. Russell Ward Earl, a young Brooklyn bride, on a honeymoon hunting trip expedition in British Columbia, according to word received from her by friends here.

First Colonization of Gallipoli.

Athenians colonized the peninsula of Gallipoli more than 2,500 years ago. Its inhabitants, the Dolonkian Thracians, asked Athenian aid against savage neighbors, and Miltiades waited off the isthmus near Bulair to keep the enemy in check.

Buying Liberty.

Amsterdam, Nov. 22.—According to the frontier correspondent of the Telegraaf, a number of Belgians, who had been deported to Germany, have returned to Belgium, having paid a ransom to the Germans. It appears, declares the correspondent, that the Germans first offered a ransom for 1,000 marks, and none offering to pay this amount, reduced it to 500 marks, which many also refused to pay.

Unprofitable Land Transaction.

What might be called a remarkable land transaction took place years ago in Tokyo, with no thought of profit on either side, and today there is much searching of heart among those who are interested, heirs and lawyers. It appears that the land now occupied by the Belgian legation in Sannendo was leased fourteen years ago by the late Baron d'Anethan from Marquis Toshinaga Okubo, heir to the famous Okubo, and brother of Baron Makino, former minister of foreign affairs. A perpetual lease agreement of two thousand years was signed in consideration of the payment of approximately \$1,000. This land is now valued at about \$100,000.

But an advertisement in this paper talks to the whole community. Catch the Idea?

Optimistic Thought.

He is a strong man who can hold down his opinion.

"Look Pa, How 'Gels-It' Works!"

Lifts Your Corn Right Off.
Never Falls.

"Ever in your life see a corn come out like that? Look at the true skin underneath—smooth as the palm of your hand!"

Well Now, Look at That! Off Comes That Pesky Corn as Slick as a Whistle.

The earth is blessed with the one, simple, painless, never-falling remedy that makes millions of corn-peppered people happy, and that's "GELS-IT". Apply it in 3 seconds. It dries, some people jab and dig at their corns with knives and razors—wrap their toes in packages with bandages or sticky tape, make them red and raw with salves. Nothing like this with "GELS-IT". Your corn loosens—you lift it off. There's nothing to press on the corn, or hurt. Angels couldn't ask for more. Try it tonight on any corn, callus or wart. "GELS-IT" is sold and recommended by druggists everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. Elgin.

100 YEARS OLD.

With the remarkable record of having established over a hundred and twenty thousand Sunday Schools throughout the country, with a half million teachers and five million scholars, the American Sunday School Union is now preparing to celebrate its one hundredth anniversary. The Society has issued an interesting pamphlet concerning its history and work and also a leaflet entitled "Sunday School Pioneering in Rural America." The latter relates some of the amazing experiences of the Society's missionaries in the wild and undeveloped sections of the country. Both of these pamphlets will be gladly mailed upon request to all who are interested in knowing more about this unique organization which stands alone and unequalled in community development work in rural America. The headquarters of the Society are at 1816 Chestnut street, Philadelphia, Pa.

Woman's Home Companion.

This Christmas number of Woman's Home Companion is filled with good things. It is almost a fiction stories by such well-known authors as Eleanor Hallowell Abbott who begins the first part of a two-part novel; Mary E. Wilkins Freeman, Elsie Singmaster, Margaret Widdemer and Mary Heaton Vorse.

The special articles are interesting, especially the one by Arnold Bennett called "Who is the Rich Man?"

CALLS MISS RANKIN SENSIBLE

First Congresswoman Authority on Labor Conditions
---Relatives Pass City.

"The women of the country may be justly proud of their first representative in congress," said D. R. Beck of Missoula, Mont., yesterday. And he ought to know, for he knows Miss Rankin well. His son married her sister.

"See is not red haired, no siren—but she is chuck full of good common sense, and the women of Evansville or any place need not hesitate about asking Miss Rankin to do things for them."

Mr. Beck, who with his brother, J. A. Beck and wife and Mrs. C. D. Leggett of Fairfield, Iowa, passed through the city yesterday enroute to Florida, was loud in his praise of Miss Rankin. He says Miss Rankin is onto all the ropes of congress, having lobbied there during the last two sessions. She is well educated, and with her study and investigation of working conditions, especially among women and children in all parts of this country and New Zealand, is in a position to do constructive work along these lines. Her brother, Wellington Rankin, an attorney of Helena, ran for congress two years ago, but was defeated.

Miss Rankin is from one of the best families in Montana. Her father is dead. Besides her brother, she has four sisters, one of whom teaches in the state university. Miss Rankin is about 35 years old. Mr. Beck called her "a home body." She loves her domestic things, and is a good cook and seamstress. She was elected on the republican ticket.

The tourists who motored from Iowa left yesterday at noon over the Dixie Bee Line for Hopkinsville.—Evansville Courier.

Sold at \$1.85.

Mr. A. M. Henry was one of the few planters of Christian county who had held on to his wheat crop until last week when he sold at \$1.85 a bushel. But little if any wheat is still in the hands of the farmers. J. J. Garrett still has a big crop on hand.

Croup Relieved in Fifteen Minutes

No need to dose delicate little stomachs with nauseous drugs or alcoholic syrups. Simply rub a little Vick's "Vap-O-Rub" Salve over the throat and chest. The vapors inhaled loosen the tough, choking phlegm and ease the difficult breathing. One application at bedtime insures a sound night's sleep. 25c, 50c, or \$1.00.

VICK'S VAPORUS SALVE

TEMPERAMENTAL PEGGY

By LOUISE OLIVER.

The applause for the great soprano was dying away when Peggy covertly slipped into the sun parlor and drew the curtained French door shut behind her. She had seized the first opportunity to get away from the hot, crowded drawing room into the inviting cool, green recesses.

But she was disappointed in her search for solitude, for a man instantly rose from the depths of a wicker chair and bowed courteously.

"I beg your pardon," panted Peggy.

"Don't apologize, please! It's pleasant to be disturbed, sometimes. And it is up to me to eliminate myself from the scenery if you wish to be alone."

"No, don't go," she begged, and smiled so prettily that Jack Park needed no second invitation to remain. The applause started again and grew so insistent that Peggy held up a hand. "Listen! They want another encore. Aren't they greedy?"

"I wish Gardner would give it to them and keep them quiet," he said.

"I don't believe she will," she answered getting in a low chair beside a fountain full of goldfish and dabbling her hands in the water. "Sit down and let's talk. This is more fun than their stupid old music. I don't care if you are lost. You probably are; you appear to be so very much at home."

"I am at home, but not host," he answered finally. "I hate music, too, I'm Jack Park and have the honor of being Jessie's brother. Jessie is Mrs. Crixton-Payne."

"Can you sing?"

"Oh, not to speak of! I can a little."

"Will you sing 'Albion's Coon' for me some day?"

"Gladly!" Then, suddenly looking out over the grounds she exclaimed, "who is that funny fat old man?"

He followed her eyes. "That is, I think, Gardner's business manager."

"Really? What a bore to have to travel around with an uninteresting person like that. I suppose he dominates over her and won't let her eat this, that or the other thing while he stuffs himself, and makes her walk five miles every day while he rolls around in automobiles."

"Awful!" declared Jack. "Let's go out and give him a punch and dump him into the lake."

Peggy giggled. "Maybe he'll be gone when we get there!"

Jack held the door and they soon found themselves on the terrace.

They came to the end of a pergola and below them spread the lake. On a bench a hundred yards or so away sat the little fat man puffing a cigar. The lake was directly beneath him.

"Shall I?" asked Jack eagerly.

She hesitated, then nodded impulsively.

So, tiptoeing through the shrubs, Jack grabbed the bench in both hands, suddenly tilted it toward the water and—splash! The little man was in.

Jack came back grinning. "He can't drown. It's only four feet there. Come on, let's go over to the summerhouse and hunt up the kids."

So, leaving their victim to dry out as best he could, they climbed the hill to the little rustic summerhouse, where three children in charge of a nurse were having a glorious time.

The baby held his little arms up to Peggy. "You darling," she cried lifting it. Baby gurgled with delight. Peggy buried her face in the soft little neck. "Let's take her back with us," she begged.

"I'll take good care of her!" sniffed Peggy to the nurse as she started down the hill with her burden. "I'll have to hurry," quickening her pace. "I'm—I'm expected at the house. Will you please tell me the time?"

"Four-thirty," he answered, looking at his watch. "Can't you stay just a little longer?" he begged.

"I did intend to, but I've changed my mind. Let's go in and hear the rest of the music. Maybe Gardner will sing something you can understand."

"But what shall we do with the baby?"

"Take her along!"

"Just as you say," he agreed doubtfully. "You go in and I'll join you in a minute."

Five minutes later Jack Park returning through the big hall heard a familiar song. "Mammy's Little Alabama Coon," coming from the crowded drawing room.

He looked through the door and there beside the piano, her arm thrown around the baby, stood Peggy singing. Her hair curled in pretty confusion, her dress was rumpled and a smudge of chocolate showed near the dimple in her cheek.

"Hush-a-by, my little pickaninny," she sang in a rich, full voice that thrilled Jack to his very toes.

At the end of the hall, a little fat man was slipping quietly up the stairs, mopping his face with his handkerchief and muttering things under his breath.

Jack caught up to him. "Who is that singing, do you know?" he demanded.

"Dot iss Madame Gardner, dee greatest soprano in der world, young man!" answered his recent victim, "and I think she's lost her senses. Say, dot is a mighty wet lake out dere! Nicht wahr?"

(Copyright, 1916, by the McClure Newspaper Syndicate.)

Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

ROYAL BAKING POWDER CO.
New York

Government Crop Report.

Washington, D. C., Nov. 8, 1916. A summary of preliminary estimates of crop production for the State of Kentucky and for the United States, as compiled by the Bureau of Crop Estimates, and transmitted through the Weather Bureau, U. S. Department of Agriculture, is as follows:

CORN

State: Estimate this year, 104,000,000 bushels; production last year, final estimate, 114,000,000 bushels.

United States: Estimate this year, 2,640,000,000 bushels; production last year final estimate, 3,054,535,000 bushels.

WHEAT

State: October estimate, 8,190,000 bushels; production last year, final estimate, 9,900,000 bushels.

United States: October estimate, ——— bushels; production last year, final estimate, 1,011,505,000 bushels.

OATS

State: October estimate, 4,200,000 bushels; production last year, final estimate, 5,460,000 bushels.

United States: October estimate 1,229,182,000 bushels; production last year, final estimate, 1,540,362,000 bushels.

TOBACCO

State: Estimate this year, 436,000,000 lbs; production last year, final estimate, 356,400,000 lbs.

United States: Estimate this year, 1,115,000 pounds; production last year, final estimate, 1,060,587,000 pounds.

POTATOES

State: Estimate this year, 4,120,000 bushels; production last year, final estimate 6,426,000 bushels.

United States: Estimate this year, 289,000,000 bushels; production last year, final estimate 359,103,000 bushels.

SWEET POTATOES

State: Estimate this year, 900,000 bushels; production last year, final estimate, 1,050,000 bushels.

United States: Estimate this year, 67,700,000 bushels; production last year, final estimate, 74,295,000 bushels.

HAY

State: September estimate, 1,238,000 tons; production last year, final estimate, 1,225,000 tons.

United States: September estimate, 86,155,000 tons; production last year, final estimate, 85,225,000 tons.

APPLES

State: Estimate this year, 2,150,000 barrels; production last year, final estimate, 4,170,000 barrels.

United States: Estimate this year, 67,700,000 barrels; production last year, final estimate, 76,870,000 barrels.

PRICES

The first price given below is the average on November 1 this year, and the second, the average on November 1 last year.

State: Wheat, 108 and 105 cents per bushel. Corn, 78 and 54. Oats 57 and 45. Potatoes, 131 and 59. Hay, \$12.20 and \$11.00 per ton. Eggs, 28 and 23 cents per dozen.

United States: Wheat, 158 and 93.1 cents per bushel. Corn, 85 and 61.9 cents. Oats, 49 and 34.9 cents. Potatoes, 136 and 60.8 cents. Hay, \$10.68 and \$10.83 per ton. Cotton, 18.0 and 11.6 cents per pound. Eggs, 32 and 20.3 cents per dozen.

Optimistic Thought.

No one can be had to those whose designs are good.

FAVORS ELECTION BY DIRECT VOTE

Chamberlain Will Propose Changing the Method of Choosing President.

Portland, Ore., Nov. 22.—Senator Geo. E. Chamberlain, who left last night for Washington, announced that at the coming session of congress he will introduce a proposed constitutional amendment providing for the election of the President by direct vote of the people. His intention, he said, is to get the amendment under way promptly, so that it may be acted on by congress and, if adopted there, by the legislature of the various states in time to become effective for the presidential election.

"The recent election demonstrated more strongly than ever the desirability of electing the President by direct vote," said Senator Chamberlain. "If 5,000 votes in California had been changed the state would have gone for Hughes and he would have been elected, notwithstanding 400,000 more votes were cast in the nation for Wilson than Hughes. Another time the present system might work to the advantage of the other party."

Senator Chamberlain, who is chairman of the senate committee on military affairs, said he would also at the coming session put forward a measure providing for universal military service.

Says Farmers Used Blue Paint

Charges made by Joseph Hartigan, Commissioner of Weights and Measures, of New York, that Western farmers had purposely underestimated their crops to force up prices, were denied by the Department of Agriculture.

Pecans Money Maker.

Vernon Jones, of near Hickman, threshed a pecan tree on his place this week, and the nuts from this one tree brought him \$93 cash. The pecan crop in this section this year will bring a large amount of money, the pecans selling at high price.

ROOF OF CABIN IS DESTROYED

Early Morning Blaze Damages House on North Liberty Street.

The roof of a cabin on the corner of Fourth and Liberty streets belonging to Carrie Brent, col., was burned off about 4 o'clock Tuesday morning. A new sewing machine and some other articles were also destroyed. It is not known now the fire originated.

The loss, it is understood, is covered by insurance. When you want fire, tornado, life or bond insurance in the Oldest Strongest Companies see H. D. WALKER, office up stairs, 305, Anderson-Fowler Drug Store, Corner Ninth and Main. Office 305, reside 944.

WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistering just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an ineffaceable impression.

Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do for you.

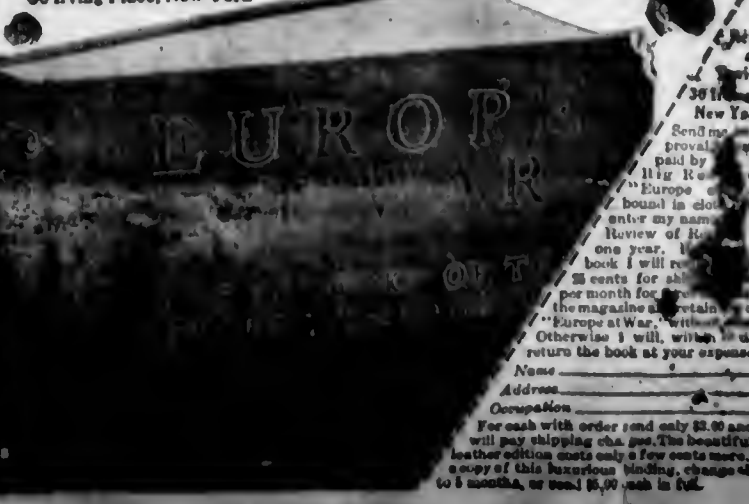

Get the Review of Reviews for a Year

Send the Coupon only. It brings the big, handsome book, charges prepaid, absolutely free. All we ask is that—after you get the book and like it—you send 25 cents for shipping and \$1.00 a month for three months to pay for the "Review of Reviews" for one full year.

Send no Money

If the book isn't worth more than you pay for book and magazine together, send it back at our expense. But be prompt. The world-wide fame of this compendium will make these few volumes disappear from our stock room at once. Send your Coupon today—and be in time.

PLANES WITH CLIPPED WINGS

French Aviators Are Compelled to Learn Flying on "Rollers" and "Penguins."

After I had received my preliminary instruction in the construction of Nieuport machines (fast scouting aeroplanes of French service) and the technique of handling them, I was put on a machine called the "roller" and given my first instruction in steering.

The roller is simply a Nieuport whose wings have been cut down to such an extent that it will not rise—except for perhaps a foot or so in a great burst of speed. It runs almost like a motorcar. By its use one develops the instinct for steering in a straight line and for turning. It is really much harder to steer a roller along the ground than to steer a real machine in the air. The contact with the earth is always twisting and turning it in the craziest fashion. By the time one has finished his course on the roller he understands horizontal steering and knows something about the management of his engine.

Perpendicular steering, which is more important, of course, comes when he is promoted to a "penguin." This is a complete machine, except that the engine is so weak as not to permit it to rise more than 25 or 30 feet. On it the student aviator practices rising and descending, and especially the art of landing.

Landing is the most difficult and the most important department of aviation. Half or three-quarters of the accidents occur because the aviator has made a bad contact.—An American Aviator in the Saturday Evening Post.

THE UNATTAINABLE

"Pa, what is meant by 'the unattainable'?"

"The unattainable," my boy, seems to be a tariff to please all."

LEGAL SIZES FOR FISH.

Inquiries indicate that there are many who do not understand the exact significance and necessity of the six-inch law for brook trout and of similar regulations regarding the size at which other species may be taken. Until an individual of a given species has reached the prescribed size it has never spawned, and if all the individuals were caught before they had arrived at the spawning age it is perfectly plain that the complete extermination of the species would be a matter of only a short time. It is therefore to the interest of every angler to see that undersized fish are not destroyed. Every food and game fish should have a chance to spawn at least once before being taken.

LET HIM GO.

"I hope my husband won't drink while I am gone."

"You are foolish. When I came home last summer my husband had accumulated enough old bottles to pay for my fall outfit."

NATURAL AFFINITY.

"Did you notice in what hoarse tones Mr. Sniffles spoke?"

"That must be because he's got the hay fever."

THE RESULT.

"China can't get the loan in this country it asked."

"That means a bad break in China."

RURAL SOLUTION

Knicker—Which came first, the egg or the chicken?

Booker—We didn't get either in the country.

NOT ABSOLUTELY SELFISH.

Irate Farmer—Do you think you own this road?

Motorist—Dear me, no. There are other motorists.

Mrs. Powell Almost Dead.

Dry Ridge, Ky.—"I could hardly walk across the room," says Mrs. Lodia Powell, of Dry Ridge, "before I tried Cardui. I was so poorly, I was almost dead. Now I can walk four miles and do my work with much more ease. I praise Cardui for my wonderful cure." Cardui is successful in helping sick women, because it is composed of ingredients that act specifically on the womanly constitution, relieving headache, backache, irregularity, miliary and distress. Only a good medicine could show such continual increase in popularity as Cardui has, for the past 50 years. Try Cardui, the woman's tonic.—Advertisement.

Breakfast Cakes.

An excellent plan is to keep three baking powder tins, a quarter, half and pound size. Brush the can to be used with butter and pack in leftover cereal while hot and cover. When needed slip out of the can, cut in one-half-inch slices and fry in butter. Serve with maple syrup. Almost all of the large variety of cooked breakfast foods can be used in this way.

Scalloped Salmon.

One can salmon, one cupful of white sauce, 5 or 6 soda crackers. Pick salmon over, remove skin, bones and oil; flake fish with a fork. Take a medium-sized agate dish, put in a layer of rolled crackers, another layer of salmon and so on, continuing until the dish is all used. Reserve enough crackers for the top. Bake in hot oven and brown.

Blueberry Cakes.

Cream one-half cupful of butter and three-quarters of a cupful of sugar. Add two well-beaten eggs, one-half cupful of milk, two cupfuls of flour, two teaspoonfuls of baking powder and one quart of blueberries. Bake in cup tins and serve hot with hard sauce.

To Prolong a Mat's Life.

Doormats can be prevented from fraying and made to last much longer by buttonhole stitching all around the edges with a large packing needle and some medium-sized string. The stitches should be about one inch apart and one inch deep.

For Broken Crockery.

White lead is one of the few cements that resists both heat and water. Apply thickly to the edges of the broken pieces, press them tight together and set aside to dry.

To Remove Scorch Stains.

All traces of the damage done by too hot an iron may be quickly removed by dampening material with peroxide of hydrogen, then pressing and putting in the sun to dry.

A Clogged System Must Be Feared.

You will find Dr. King's New Life Pills a gentle yet effective laxative for removing impurities from the system. Accumulated waste poisons the blood; dizziness and pimply, muddy complexion are the distressing effects. A dose of Dr. King's New Life Pills to-night will assure you a free, full bowel movement in the morning. At your Druggist, 25c.—Advertisement.

Grace—What is the ice trust?
Harry—The ice trust is what the small boy has when he goes on the pond for the first skate of the season.

New Oil-Extraction Process.
A process invented by an Italian chemist for extracting essential oils from citrus fruits is said not to affect the chemical properties of the oils in any way, and it is predicted that it eventually will revolutionize the industry.

A TRIUMVIRATE OF REAL EVILS

Factors Which Affect Well Being of Farmers.

BAD BOOK WORST ROBBER.

Weather, Books and Roads Contribute Largely to the Influences of Rural Life—All Are Factors in Favor of the Mail Order House and Against Local Merchant.

(Copyrighted, 1914, by Thomas J. Sullivan.) Weather, books and roads contribute largely to the influences of rural life. Bad weather and bad roads mean—books.

And books they say are the light-houses erected in the great sea of time. They are masters who instruct us without rods or ferules, without words or anger, without bread or money. If you approach them they do not hide. If you seek them they do not hide. If you blunder they do not scold. If you are ignorant they do not laugh.

But the worst robber in all the world is a bad book. It has long been the devil's policy to keep the masses of mankind in ignorance; but finding that they will read, he is doing all in his power to poison their books. Now, let's see what our rural friend is reading. Oh, rural avis! Oh, book without parallel in the history of commercial destruction! "The book" is a huge pictorial, tricolored retail catalogue.

The catalogues of mail order houses are a kind of leaky boat on the waters of temptation; some of the temptation will get in anyhow.

Mud a Great Help Too. What is more natural with gloom, darkness, rain and mud surrounding a farmer or suburban dweller, when to venture forth means either a sacrifice of self or faithful horses, than for him to turn to the alluring catalogue for both pasture and a means of procuring the necessities of life? Thus it can be seen that the third and best factor in favor of the catalogue houses is mud.

Man is measured by his deeds, and it seems strange that after mastering the art of reading the stars, discovering the course of the planets, controlling the iron monster, the lightning, the sea and the wind, man shows his inability to conquer the one great problem which is proving such a drawback to the best expression of his life.

in rural districts as far as social and commercial conditions are concerned. Poor roads seem to be his heritage, his master. A country's stability is measured by its agricultural importance, as the well being of a nation is like a tree—agriculture is its root; industry and commerce are its branches and its life. If the root be injured the leaves fall, the branches break away and the tree dies. Community pride begins where agriculture leaves off, and both are equal and inseparable in their importance to a healthy, happy, successful existence for man.

Blue Grass Roads Are Best. It is a pleasure to drive through the blue grass district of Kentucky, where they have what they call macadamized turnpikes. These roads are the equal of any paved city street and of course are passable at all seasons of the year. They cost approximately \$1,000 per mile. The highways in Kentucky are from thirty to sixty feet in width. It is estimated that were the highways of Illinois regulated to fifty feet \$25,000,000 could be added to the wealth of the farmers of the state. That alone would build more than 8,000 miles of road.

Spend \$150,000,000. This country today has about 2,250,000 miles of public highway, on which it is estimated that the people of the country are spending \$150,000,000 annually. Statistics say we also spend \$2,000,000,000 for alcohol, \$9,000,000,000 for tobacco, and it is said that the ladies spend \$25,000,000 yearly for candy. If all this money could be appropriated for road building we could have a turnpike to the moon.

The principal cause of the Roman empire's downfall was its neglect of agriculture—the exodus of its men and women from the farm to the city, the life there to be spent in extravagant and riotous living. Go to any of our cities today and view the extravagant dress and general trend of life for pleasure and you will feel that the old Roman times are being repeated.

It would seem that the remedy lies in building good roads, narrow if advisable, but firm and hard, and have them all lead to your trading center and to the doors of your local merchants. Then on gloomy, rainy days you can do your marketing, and then "back to the farm" without sacrifice to self or injury to beast.

Nothing tends to make a man a good citizen so much as co-operation with his fellows. No man can live for himself alone. Selfishness leads nowhere but to destruction, strife, bad feeling and disorder. It is one of the meanest of all the vices.

The farmer and the town consumer who patronize the retail catalogue houses also assist materially in the destruction of the local market and trading center. This practice of sending local money to out of town merchants is a dangerous habit.

SHE CURED HER NEIGHBOR

Long Suffering Wife Finally Put a Stop to Continued Borrowing.

"Well, I've found a way to stop my neighbors from borrowing," said a young suburban matron gleefully, the Philadelphia Record states. "You see," she explained, "we are not near any store and, of course, sometimes one has to depend on a neighbor in an emergency. But my particular neighbor seemed to have such emergencies nearly every day. And it was usually vinegar that she wanted. Now we are particular about our vinegar and get the best tarragon, and, of course, when Mrs. Neighbor asked for vinegar we gave her our best. But when she returned it she sent a very cheap grade, which we were unwilling to use and were obliged to throw out. This was repeated so often that we began to weary of it, and suddenly a bright idea struck me. I carefully poured her cheap vinegar into a bottle and saved it. Next time she asked me to lend her vinegar I sent her own to her. The cure worked. She has never asked for another drop and I suppose she thinks I am a mean sort of neighbor. But I don't care."

MAKE SILK SAUSAGE SKINS.

Germany now is making sausage skins of raw silk, according to the Rheinische Westfälische Zeitung. Even before the war experiments were being conducted in the making of a hollow casing of raw silk to be filled with sausage meat. The Elberfeld ribbon factory is now turning out great lengths of this sausage casing. Just now, however, owing to the shortage of meat, very large quantities of casing are not needed. With the ordinary prices of raw silk prevailing the new casing is no dearer than the usual sausage skins.

The Berliner Lokal Anzeiger of August 3 says that a new invention has been introduced by the Berlin inventions bureau for putting meat up in briquettes for transport. These briquettes, it is said, are impervious to the attacks of insects.—New York Times.

TRAINING FOR THE BLIND.

Announcement has been made that the Pennsylvania Institution for the Instruction of the Blind, at Overbrook, Pa., is ready to supply skilled piano tuners on demand. The Philadelphia Public Ledger declares that this "bears witness to the progressive spirit of the school in its successful endeavor to widen the economic horizon for those who might sit listless in the dark lamenting their condition. Abroad among the war blinded, and here at home among our own people, new and hopeful opportunities increase. In the enhanced subtlety of the senses remaining nature provides a partial compensation for the loss of sight. Such schools as the admirable one at Overbrook train their pupils for a range of employment surprising to those who have not investigated the modern schooling of the blind."

THE DUTY OF HUSBANDS.

"Girls nowadays take too light a view of marriage," said Prof. C. Rockwell, the Chicago ornithologist. "Lecturing before a summer school of girls last month, I happened to remark:

"The ostrich sees very little; on the other hand, it digests everything."

"Gee," said a girl on a back bench, "what an ideal husband an ostrich would make!"

WRONG.

Teacher—Seven cows are walking along a path in single file. Which one can turn around and say, "I see six pairs of horns."

Fresh—Why, the first cow.
Teacher—Wrong, John, cows cannot talk.—Panther.

NONCOMMITTAL.

"How do you intend to vote next fall?"

"I ain't tellin'," replied Farmer Cornetossel. "I want to have the pleasure of bein' persuaded as long as possible."

FORCIBLE SPEAKER.

Nipp—That fellow Talkalot is as stubborn as a mule.

Tuck—Yes, but the mule has an advantage in that it argues with its feet.—Town Topics.

WHITEWASH OF HIGH VALUE

Government Standard is Very White and Will Last Well When Used on Outside Jobs.

Following is the well-known standard recipe for "Government Whitewash": Slake one-half bushel fresh lime with boiling water, covering it to keep in the steam. Strain liquid through a fine sieve and add seven pounds of fine salt, previously dissolved in warm water; three pounds of ground rice, boiled to a thin paste and stirred in, boiling hot; one-half pound boiled gliders whitening; one pound white glue, soaked first in cold water until swollen, then carefully melted over fire. To this mixture add five gallons of hot water and let it stand covered a few days.

A pint of the whitewash will serve to cover nearly a square yard. It is very white and will last well when used on outside work.

Changing Seasons Bring Colds.

"Stuffed-up head," clogged-up nose, tight chest, sore throat are sure signs of cold, and Dr. King's New Discovery is sure relief. A dose of this combination of antiseptic balsams soothes the irritated membrane, clears the head, loosens the phlegm, you breathe easier and realize your cold is broken up. Treat a cold persistently; half-way measures leave a lingering cough. Take Dr. King's New Discovery until your cold is gone. For 47 years the favorite remedy for young and old. At your Druggist, 50c.—Advertisement.

Frigidity Saves From Fire.

Two travelers just back from their holiday trip were disputing as to which had experienced the greatest cold. Said one: "In the part of Iceland where I was the ground is frozen so hard all the year round that when they want to bury a man they just sharpen his feet and drive him in with a pile driver." The other replied: "Yes, I know that place. Didn't stay there long; found it not bracing enough for me; went on to a small town farther north. The hotel where I was staying caught fire. No fire escapes or ladder in that primitive settlement. Staircase burned away. Luckily kept my presence of mind. Emptied my bath out of the window and slid down the side."

Children Cry FOR FLETCHER'S CASTORIA

Origin of Carnation.

The carnation was cultivated by ancient Greeks, who gave it the name of Dianthus, flower of the gods. They used it for making chaplets, whence the name "coromillon" was derived. It was partaken of at great banquets as a kind of salad, and during the reign of Charles II it was used in the making of a liquor.

Every Woman Wants

The man with money knows it.

The reason why the man with money has a real Thanksgiving is because he STARTED to bank his money a long time ago and is now reaping the harvest of his early thrift.

He is thankful that he didn't SQUANDER his money on extravagances or put it into some "Get-Rich-Quick" scheme.

He is thankful he BANKED it. Are you thankful that you have banked your money.

Put YOUR money in OUR Bank.

We pay 3 per cent interest on time certificates of deposit

DISTRICT ASSOCIATION

At Bowling Green Next Month a Notable Educational Event.

Bowling Green, Ky.,
Nov. 20, 1916.

Editor Kentuckian:

The Second and Third Congressional Districts Educational Association is to be held here Dec. 1 and 2 at Western Kentucky State Normal School.

The program is to be rendered by some of the ablest educators of the South, among whom are President W. A. Ganfield, Centre College, Danville, Ky., and J. H. Kirkland, Vanderbilt University.

On Friday evening the Normal School will give a reception to the visitors and at 2:30 Saturday afternoon an auto ride will be given by Bowling Green and Warren County Chamber of Commerce, trip to include visits to two of Warren County's handsome consolidated schools. Party will return in time to meet trains leaving at 6 p. m.

This promises to be one of the best District Associations ever held and we are looking for a large representation from Christian.

Won't you that have been here come and mingle with old friends and partake of an educational feast, and you that have not been here come and see what a fine place Bowling Green is and help us enjoy its hospitality?

Very truly yours,
CHRISTIAN CO. DELEGATION.

To Preserve Game.

Bowling Green, Nov. 22.—With a view of protecting the game beyond the time laid down by the law, a number of farmers in the Woodburn neighborhood have entered into an agreement to neither hunt themselves nor permit any hunting on their lands for a period of two years. The territory affected by the agreement embraces about 4,000 acres in one body.

The farmers and land owners realize that game is scarce and believe such action on their part will result in a much greater abundance in two years' time.

Doctor's Bad Break.

Murray, Ky., Nov. 22.—Morphine tablets given him by a physician who thought he was giving calomel, caused the death of the 6-year-old son of Frenzo Neese, residing near Murray. The family were at church at the time, and the child, who was not feeling well, asked the doctor to give him some calomel. Instead, he was given morphine tablets, and died soon after eating them.

Car Shortage Situation.

That the car shortage threatens disaster to apple growers, cotton interests, the automobile industry and shippers of perishable foods, was told by witnesses at Saturday's hearing of the Interstate Commerce Commission investigating the cause of the coal famine.

INCORPORATED

CAMPBELL-DICKERSON.

A pretty wedding was that of Mr. Arnold Robert Campbell and Miss Myrtle E. Dickerson, which occurred at the home of the bride's mother, Mrs. Mary E. Dickerson, near Howell, yesterday afternoon at 3:30 o'clock. Rev. M. M. McFarland, pastor of Olivet Baptist church, performed the ceremony in the presence of a large number of the friends of the young people. The house was beautifully decorated for the happy occasion. Miss Crit McKnight played the wedding march and Miss Grace Rawls, of this city, sang a solo. The ribbon bearers were Misses Margaret Dixon, Josephine Boyd, Katie Stroube and Ruth Boyd. Mr. Campbell and his bride were accompanied to this city by Dr. Staley Stroube, Walter Dickerson and Misses Grace Rawls and Crit McKnight, and at 5:30 the newly weds left for Nashville. They will also go to Chattanooga, Tenn., to visit a brother of the groom for a few days, before their return.

The groom is a prosperous South Christian farmer. His bride is a very pretty and accomplished young lady and the young people have a host of friends who wish for them a long life of happiness.

Mr. and Mrs. Campbell were the honorees of several pre-nuptial events, all of which were heartily enjoyed. They were also the recipients of many bridal presents, some of them being very valuable.

BOYD-BOWLES.

Clarence G. Boyd, of this city, and Miss Essie May Bowles, of near Crofton, were united in marriage yesterday. The wedding occurred at the home of the bride's parents, Mr. and Mrs. Walter D. Bowles. The bride is a social favorite in Crofton's society circles. Mr. Boyd is engaged in the transfer business in this city and is quite popular with his associates. The young people will reside here.

DOSSETT-JONES.

Judge Knight performed the ceremony yesterday morning uniting in marriage Petrie Dossett and Mrs. Catherine Jones. The bride is from Todd county and the groom from near Fairview.

THRESHER FOR SALE

Will sell 13-horse Nickols & Shepherd engine and a practically new separator 28x40, at a bargain, if taken at once. Call Edgerton 18-5.

H. W. LYLE, Oak Grove, Ky.

Four Killed

Four persons were killed and two were injured when Louis Jackson drove into a telephone pole on the back stretch in the Grand Prize races at Santa Monica, Cal., going 85 miles an hour. Jackson, his mechanic and a woman lemonade vender, in the path of the car were killed, and T. B. Jenkins, a camera man for a motion picture company, died soon after he reached a hospital.

Opening Postponed.

The loose leaf warehousemen of Madisonville had a meeting and decided that owing to the bad weather conditions that they would postpone the sale until conditions were more favorable, owing to the long dry spell the tobacco will not come in order, and as soon as it does, which they hope at an early date, they will announce a new date.

Making the World Better.

That the world is growing better means that the ruling thoughts are those seeking brighter, better things, higher levels of vision.—Max.

Brute!

Any woman can economize when she's broke. Get the idea? Keep her broke.—Exchange.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The promoters have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists. Take Hall's Family Pills for constipation.

CHEW FOOD LEISURELY

This Is Given as Way to Reduce the Cost of Living.

Chicago, Nov., 18.—Leisurely mastication as a factor of reducing the cost of living was one of the suggestions today before the citizens' committee to investigate the cost of food-stuffs, C. P. Kinney, who for thirty-six years has been feeding students at Valparaiso, Ind., made the suggestions, subjoined in his list of recommendations made to the committee, of which he is chairman:

"Eat slowly, you don't eat so much as when you eat rapidly."

"Buy in large quantities."

"Don't buy food put up in factory paper packages; you can't eat the paper."

"Don't consume potatoes when they cost more than a dollar a bushel. Eat rice or hominy."

John Dill Roberson, health commissioner of Chicago, who appointed the committee, supported Mr. Kinney's fourth proposition by suggesting that rice, hominy and apples be substituted for potatoes and other high-priced vegetables. Mr. Kinney said that cracked rice was very cheap, while cornmeal was one of the best and cheapest of foods.

FELL FROM LOFT;

HURT; THEN WELL

How a Man Who Landed On Wood Pile And Was Sore From Head to Foot Found Quick Relief.

Once upon a time Edwin Putnam, who lives in the quiet, pretty hamlet of Wendel Depot, Mass., climbed up into a loft to get some building material, just as many another man living in the country must often do. Suddenly he slipped and fell. Ten feet below was a pile of wood, knotted and gnarled. It was a nasty tumble, and Mr. Putnam was injured painfully in the back; he was covered with bruises, and was sore from head to foot.

The next day he bought a bottle of Sloan's Liniment which had been recommended to him. Within a very few hours the soreness had vanished and the lameness had disappeared. He was an active man once more.

Sloan's Liniment can be obtained at all drug stores, 25c., 50. and \$1.00.

Sloan's Liniment
KILLS PAIN

Suicides On The Increase.

According to the mortality statistics of the bureau of the census, suicides are on the increase in the United States.

The number of deaths assigned to suicides in the registration area of the United States during 1914 (the last year for which statistics are available) was 10,933, corresponding to a death rate of 16.6 per 100,000 population. In 1913, according to the same report, there were 9,988 suicides and the rate was 15.8.

A comment accompanying the figures on these suicides states that a part of the increase is due to the fact that with each year the statistics are becoming more nearly complete and accurate. However, there is no denial that suicides have increased.

IMPORTANT GRANGE MEETING.

An important meeting of the Church Hill Grange will be held Friday, Nov. 24, and those interested in cattle feeding are urged to be present on the occasion, as the date of the 1917 Grange Stock Sale will be decided upon.

EDITH WILLIAMS,
Secretary.

Milk Strike Settled.

OSTER SUITS

Defendants Accused of Flagrantly Violating Corrupt Practices Act.

Paducah, Ky., Nov. 22.—Ouster suits were filed this week in the McCracken circuit court, one by C. L. Vanmeter against Mayor Frank N. Burns and the other by T. N. Hazelip and Robert Treadway against City Commissioners Don P. Marton, Eugene Graves and W. A. Gardiner. In each suit the defendants are accused of flagrantly violating the corrupt practices act.

Vanmeter was defeated in the recent election by Burns for mayor, and Hazelip and Treadway were de-

feated for city commissioners. For corrupt practices alleged in the petitions the plaintiffs ask that the defendants be ousted from the offices they are holding and that the plaintiffs be declared elected and permitted to assume them.

Girl Sentenced.

Baltimore, Nov. 22.—Margaret Marvin, otherwise known as Bessie Clark, 18 years old, of Raleigh, N. C., was sentenced to two years in the Maryland penitentiary for violating the white slave law. It was testified that she took Antoinette M. Fleischman, 15 years old, to Norfolk, Va., and got her to lead an immoral life.

Easy Boss.

Notice in a factory: No loafers allowed except employees.

PURELY PERSONAL

Mr. and Mrs. Harry Saunders, of Harriman, Tenn., are guests of Mr. and Mrs. G. A. Renshaw.

Mr. John B. Trice, Jr., and family, of Cincinnati, are visiting the family of Mr. John B. Trice, Sr.

Mrs. Jno. P. Burnett, of Houston, Texas, returned home yesterday.

Miss Betsy Ware left Tuesday for Houston, Texas, to spend the winter.

Still Producing Diamonds.

During the first half of last year more than \$22,000,000 worth of diamonds were produced in South Africa.
